

**NEW NON-FLAMMABLE**

# TAC-2

**Adhesive Lubricant**

Ideal for Mining and areas with low ventilation

Non-conductive and Non-corrosive  
ensuring safety during use

Ideal for situations and environments where  
flammable vapours may become ignited and cause fire

## TAC-2 ADHESIVE LUBRICANT RANGE

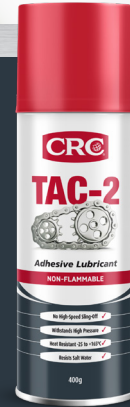

**TAC-2  
5035**

CRC TAC2 is a tough adhesive lubricant that bonds to chain/wear surfaces to keep them in peak operating condition by reducing friction and wear that lead to metal fatigue.

### TYPE OF USE

- O-rings chains
- Sprockets
- Industrial chain drives
- Bottling Plant
- Farm equipment

**NEW  
TAC-2 NON-FLAMMABLE  
1754520**

CRC TAC-2 Non-Flammable (NF) forms a strong bond with surfaces, minimising run off and offering long-term lubrication and corrosion prevention. This adhesive lubricant is resistant to washout and can withstand high temperatures without ignition.

### TYPE OF USE

- Mining
- Power stations
- Poles and wires
- Wherever an adhesive lubricant is required and flammability is an issue
